| This procedure is to test the leak integrity of single- and double-walled spill buckets. See PEI/RP1200 Section 6.2 for hydrostatic test method, Section 6.3 for single-walled vacuum test method and Section 6.4 for double-walled vacuum test method. |              |                       |       |                    |                            |                 |                     |          |                           |          |                    |                 |                         |
